

ValuesAdvisor

CREATED BY INVESTORS FOR INVESTORS

ValuesAdvisor is a nonprofit initiative that helps investors connect with trusted financial advisors who align with their faith and their values – from climate action to social equity to causes you care about.

What We Do

We make it simple to find a trusted financial advisor who can invest with a faith lens and the positive change you want to create. When your investments reflect your values, your impact extends far beyond your portfolio.

What You Get

- ✓ Find advisors who can translate your values and faith into actionable investment strategies
- ✓ A trusted network of advisors recommended by experienced impact investors
- ✓ Free access with code: **ONEHOME**

How It Works

- ✓ **Browse advisor profiles** to learn about their experience and approach.
- ✓ **Use filters** – including one for faith-based investing – to find advisors who can help you invest around what matters most, and read how they describe integrating values into their practice.
- ✓ **You're in control** – advisors never see your information, and you decide when to reach out.

Here's how to get started:

1

Go to URL:
